609	12192	2348	2591
610	12192	2348	2896

TIPOLOGY

Containers are the ideal solution for the transport and storage of goods in factories and on work sites.

STRENGTHS

The strength and standard sizes allows the containers to be easily stacked, or placed one inside the other to facilitate transport operations.

The range includes new or used containers to meet the different cost constraints of customers.

STRUCTURE

Load-bearing structure in 3mm thick steel profiles welded to the 8 corner blocks.

FLOOR

Wooden floor, on request also available in steel sheet.

WALLS

Wall made from ribbed steel panels, 1.5 mm thick.

DOORS

2-leaf door complete with edging seals. Closure with 2 rods with hooks on the top and bottom and padlock cover.

All containers are fitted with 2 forklift pockets.

Blutecnica Srl reserves the right to modify its technical specifications at any time without notice.
