

880 WOOD SHED SERIES

TIPOLOGY

You can tidily store wood, garden furniture, recycling bins, garden equipment, lawnmowers, toys and more in the wood shed.

STRENGTHS

- The walls made from pre-painted and insulated steel panels add strength and resistance to the wood shed, and ensure the perfect storage and conservation of your property.
- The elegant colours and materials allow the wood shed to be installed easily near your home.
- The sophisticated Italian design adds that touch of originality and sophistication to the wood shed expected of a hand-crafted product.

FEATURES

The **wood shed** is a household container of a considerable size, is also suited for storing wood or garden machinery and equipment, and is available in 2 versions: 160x100xh.160 cm; 200x100xh.200 cm.
