

### TIPOLOGY

The Nevada garden shed can be used to store gardening equipment, lawnmowers, toys, bicycles and much more besides.

### STRENGTHS

- The pre-painted steel sheet walls ensure the solidity of the structure
- The elegant colours and materials allow the Nevada shed to blend in perfectly in your garden. The Italian design also adds that touch of originality and sophistication expected of a hand-crafted product.
- The high quality and durable materials mean that the shed is maintenance-free.

### STRUCTURE

La struttura del tetto, del basamento e le colonne d'angolo sono realizzati con profili in acciaio zincato, presso-piegato a freddo con spessore 15/10 e successivamente verniciati nel colore desiderato.

### FLOOR

The shed is supplied without flooring; where required, it is made from 18 mm thick waterproof chipboard, fixed to the base structure and covered in non-slip PVC or non-slip rice grain aluminium sheet.

### WALLS

The walls are made from pre-painted galvanised steel panels.

### ROOF

The roof is made from pre-painted galvanised steel panels.
